VPC FIBERGLASS

*Our FRP ductwork is exceptionally strong, versatile
and offers superior corrosion resistance.*

ABOUT OUR FIBERGLASS DUCTWORK

Fiberglass ductwork from Primary Plastics, a division of VPC Fiberglass, is designed to handle a variety of corrosive and static pressure requirements. Our duct is manufactured using a filament-wound process and is built according to SMACNA standards. Standard tooling up to 72" diameter allows for a highly efficient production turnaround.

FRP ductwork is the **ideal solution for industrial and commercial sites** and can be customized to meet project requirements. Our engineering team will work closely with you to help select the proper components and materials for your system.
